Basic Detail Report

Barn and Windmill

Medium

Glass plate, collodian emulsion

Description

A barn with a stone foundation and wooden siding stands next to a large windmill, possibly used for pumping water. A small board and baton sided shed sits at the base of the windmill. Another, smaller, barn can be seen in the background. The large barn in the center features a stone foundation to the first story, then a large wooden section above. The wood on the barn appears to be painted.

Dimensions

Overall: 5 × 4 in. (12.7 × 10.2 cm)
