

Basic Detail Report

Mask

Date

1840-1860

Primary Maker

Haisla

Medium

Wood (alder), green, red, black pigments

Description

This slightly abstracted mask features strong flattened planes along the sides of the face, cheeks, and eye area. There are approximately twelve masks with this style of carving and they represent a distinctive sub-style of Haisla carving. No documentation survives describing what role this mask played in their ceremonies.

Dimensions

Overall: 11 × 8 × 7 in. (27.9 × 20.3 × 17.8 cm)
