Basic Detail Report

Basket

Date

1100-1300

Primary Maker

Pueblo III

Medium

Hemp, willow or sumac, pigments

Description

The distinctive cylindrical shape of this basket is associated with the traditions of Southwest Indians living between A.D. 1100 and 1300 (Pueblo III period). The

black, red, blue and ochre zigzags and stepped designs have survived the centuries exceedingly well. Most of these unique baskets are small, and probably held personal items.
