

Basic Detail Report

Jar

Date

19th century

Medium

Clay

Description

Acoma canteen with orange, black, and white glazing decorations. There is a flat spot, slightly indented into the vessel, on the underside to allow it to sit flat. There are

two ear handles on both sides of the canteen's opening, which projects outward from the vessel at an upward angle. The decorations are highly intricate around the vessel and repeat at opposite sides. There are two pieces of an unknown material (possibly rawhide) hanging from each handle. ceramic

Dimensions

Overall: 7 × 8 × 8 in. (17.8 × 20.3 × 20.3 cm)
