

Basic Detail Report

Belt-Driven Potato Sorter

Date

1908

Medium

photographic print on heavy cardstock

Description

A potato sorter or similar belt-driven machine is powered by a steam traction engine, and being used in a field. A horse team is hitched to a wagon and stands idle next to the sorter. A man stands on top of the machine and another man runs the traction engine. Other men stand nearby and a small group of people are in the background. Near Lowville, Lewis County, New York.
