Land Roller

Date

c.1915

Medium

Real Photo Postcard

Description

A case traction engine is hitched to a land roller made to pulverize clods of soil in a field. The land roller may be made by the H.P. Deuscher Co. of Ohio or the Emerson-Brantingham Co. of Illinois. It appears that another machine or wagon is behind the outfit and in partial view in the foreground on the right. The field the farmer works in is large and vast.

Dimensions

Overall: 3 3/8 x 5 3/8 in. (8.57 x 13.65 cm)
