Basic Detail Report

Steam Traction Engine in Front of Barn

Date

c.1907

Medium

photographic print on heavy paper

Description

Five men pose in the area just outside of a barn. Two men lean against a steam traction engine on the left side of the print. The engine appears to be attached to another machine not in the frame. Three men stand further in the distance on the right side of the print in front of the barn, which fills the upper right corner of the print. Another piece of farm equipment is located to the left of the steam traction engine.
