Pressing Hay using Horse Power

Date

September 5, 1914

Medium

photographic print on heavy paper

Description

Three men work to press hay, powering the press with the power of a single horse. The hay press is a towering piece of equipment. One man stands behind the horse, a second at the bottom of the hay press on the left and another on the output of the press. Loose hay falls off the output platform of the hay press. A barn is in partial view behind the equipment on the left. Trees and a field are in the background. On the side of the postcard is handwritten: Sept. 5/14 See Phillie up on the press."
