Basic Detail Report

Steam Traction Engine in Front of Mounds of Hay

Date
c.1913

Medium
photographic print on heavy paper

Description
A steam traction engine is located in the foreground of the print in the lower right corner. The steam traction engine is attached to a thresher, located in the midground of the print on the right side. A mound of hay is located behind the thresher. A wagon filled with hay is partially obscured by the steam traction engine. Ten men are visible in the print, working on the thresher, engine, or watching from the side.

Dimensions
Overall: 3 1/4 × 5 7/16 in. (8.3 × 13.8 cm)
